---

- |              |             |           |
|--------------|-------------|-----------|
| • JavaScript | • MongoDB   | • GitHub  |
| • HTML/CSS   | • NextJs    | • Angular |
| • React      | • ExpressJs | • Java    |
| • NodeJs     | • Tailwind  |           |

---

## WORK HISTORY

---

**Intern, 01/2024 - Current**

**EyeTGlobal** - Asansol, India

Interned at EyeTGlobal, completing MERN stack development. Worked on full-stack applications using MongoDB, Express.js, React, and Node.js. Collaborated on real-world projects, sharpening both front-end and back-end skills.

---

## PROJECTS

---

• **Hire Have - Job Portal (MERN Stack)** - [Link](#)

Developed a job portal website using the MERN stack, focusing on large-scale application architecture, API integration, and complex data handling. Overcame challenges in data storage and display, enhancing my full-stack development skills.

• **Thoughts Unbound - Blog Website (React, Appwrite)** - [Link](#)

Built a blog website using React and Appwrite, focusing on third-party service integration. Resolved challenges in handling user unique IDs, improving my backend service skills.

• **NextJs Auth - Full-Stack Authentication (Next.js, Node, Express, MongoDB, TypeScript)** - [Link](#)

Implemented secure authentication with Next.js, enhancing web security skills. Overcame challenges with routing in a full-stack setup.

• **Currency Converter - Web App (React)** - [Link](#)

Built a Currency Converter in React, learning custom hooks and API integration, enhancing my skills in responsive web development.
